

## **Fellowship Building Team**

The Board will appoint a team of 7 members to oversee the first phase of planning for the future of the Fellowship Building. This team will design and implement church-wide discussions of the options presented to the congregation by the FB Study Committee on October 16, 2005. They will offer a variety of opportunities to discuss these options, such as cottage-style meetings, after-church discussions, or evening presentations. The team will also meet with stake-holder groups such as the church staff, the RE Committee, and the Music Committee. These discussions will take place in January and February. Optimally, in March, the team will present a summary of the discussions to the congregation. In consultation with the Board, they will proceed with whatever process is deemed necessary to prepare the congregation to vote an our annual meeting in May on the scope of project we wish to undertake.
